A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the Soldier has deceased without obtaining 160 acres, the same allowances above made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the drafted Militia of the State of Maine in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature.

He will, if preferred, Purchase the Land Warrants at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to them Blank Declarations, with suitable directions, which may be executed without the parties leaving their homes.

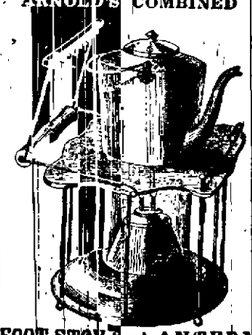
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

—AND—

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right of manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it renders an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be blown out, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, besides giving the light desired, and for cooking to small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by everyone. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

ASSIGNEES' SALE

—OF—

Valuable Real Estate

—AT—

ZILWAUKIE, SAGINAW CO., MICH.

THE following described property will be disposed of at Public Auction, at the *Merchants' Exchange, in the City of New York*, on THURSDAY, the 28th of February, 1856, at noon, unless previously disposed of at private sale, by order of the Assignees

First—One large Steam Saw Mill, known as the Gang or Mammoth Mill, about 30 by 125, including a tang of 21 saws. 2 mule rawl, with siding and edging machines, engine being about 30 by 75 feet. The whole driven by the most powerful engine on the river.

Second—The Mill known as the Shepherd Mill, of about 42 by 60 feet, containing two mule saws and edging machine, this mill is said to be equal in any mill of its size on Saginaw river. Both of the above mills are in good repair, with large and commodious Wharfs, Lumber Cars, Railways, Booms, in fact all the necessary appurtenants of first class mills. The above mills were in operation for about three or four months the last season, and gave the utmost satisfaction as regard to the quantity and quality of lumber cut.

Third—About 400 Village Lots in the village of Zilwaukie, in which there is a large Hotel 40 by 90 feet, two stories high, a new store 40 by 60 feet; Office and Boarding House, and a number of other dwellings to accommodate the families of those employed in the mills and the general business wants of the place.

Zilwaukie is situated on the left bank of the Saginaw, 14 miles from its mouth, and five miles below the county seat of Saginaw County, with which it is connected by a good road. The location is considered healthy; less sickness has prevailed in that than any other village on the river, according to the population, since its settlement, it is at the head of navigation for loaded vessels bound from or to the lakes, and is considered one of the best points for manufacturing Lumber on the river.

Also, about 500 acres of good Farming Land on Cass River, in Tuscola Co.

Boston Lying-in Hospital, SPRINGFIELD-STREET.

THE Trustees of this Hospital desire to call the attention of the Medical Faculty, and of the New England public, to the advantages which the new Hospital affords for the comfort of patients, and the treatment of those cases which it was the intention of the founders to receive.

In the construction of the Hospital great attention has been paid to the comfort of the patients, in ventilation, heating apparatus, bathing rooms, water-closets, etc. The capacity of the building being in advance of the wants of the public for lying-in patients, the trustees have decided to allow a portion of the Hospital to be used for the accommodation and treatment of diseases of the female sex," and applications may be made personally, or by letter addressed to Mrs. C. What is the Character of the Party in Power?

The coalition which succeeded in carrying this State at the last election, has now been in power three months—the Legislature has already been in session a fortnight longer than the Legislature of last year was in session, and will probably continue yet another fortnight at least, making the session a month or more longer, and the expense to the people more than one third greater than last year. The new coalition party came in with loud promises of industry, vigilance, economy, and above all, of justice and moderation in the management of public affairs. But what have they done during these three long months? How have they redeemed their pledges to the people? Nay, how have they redeemed their pledges to the men by whose votes they obtained success?

We cannot at this time, answer these questions any better than by taking the following extract from a letter of an Augusta correspondent to the Portland Advertiser.

Time enough has transpired since the accession of the dominant party to power, for a full understanding of the purposes and policy of those who control its fortunes. Moderation was to be the rule of political action, (was it not so announced in the papers?) the radicals had been driven from power and conservative men elected to govern the State. What was not said in praise of the men elected? They were model men, paragons of patriotism, the pinks of courtesy, the essence of moderation, gifted with a fair speech and a wise understanding keen men, men of character, aye, of substance too—liberal, not puffed up with pride, not shrivelled by narrow-mindedness, not dwarfed by radicalism, ah, what virtues did they lack, if the public prints of a certain class told the truth? In the Senate was the astute Barnes, the brilliant Morrill the sturdy Farley, the complacent Butler, the polished Hayden. In the House, the hard Levensaler the smooth Lyman, the adroit Talbot, the ponderous Little,—all men of legislative experience and large sympathies with the masses. Never before had the people chosen such able men to posts of honor and responsibility. Large promises of laudable usefulness in the despatch of public business were made, severe and cruel laws that interfered with the enjoyment of great natural rights were to be obliterated at an early day, economy in the public expenditures was to be introduced, and the people, the much abused people who had been overrun with the fires of fanaticism, radicalism and corruption were to enjoy for one year at least, a political millenium in which the tumultuous waves of partizanship were to be hushed, and the government of the State administered on the acceptation of all reasonable men—moderation in all things, radicalism in nothing this was the compass by which our Ship of State was to be steered.

What are the fruits? A quarter of the sands of the year have nearly run out, the Governor has embarrassed the people in their business, and opened party quarrels all over the State by the exercise of a doubtful power Reed, the immaculate Straight Whig, who never saw the inside of a K N council room but a few times, has a comfortable seat in the bed of the Treasury Evans is Attorney General, Walker, Land Agent, the plunder has been distributed pro rata, the odious liquor law remains to vex the people with its tyrannical provisions, a few acts of especial importance passed by the Legislature of last year have been repealed, some malignant plots to change the Judiciary system for the benefit of the legal profession are defeated Barnes has got up Bateman engineer Judge Davis from the Supreme bench, and here ends the chapter of the doings of this unequalled Legislature and State administration

SUICIDE OF A BOSTONIAN—A despatch from Jacksonville, Fla. states that on the evening of the 19th, Joseph N. Knox, a gentleman belonging to Boston shot himself in the woods near the city. He had for some time been stopping at the Judson House, and had deposited with the landlord a large sum of money to be forwarded to his relatives in Boston

The Montreal Advertiser says that some idea of the snow in that region may be formed from the fact, that there are drifts in the neighborhood of the Isle End twenty-three feet deep on level land, actual measurement. A warm rain would create a disastrous flood

HARMONY The Republicans elected their entire board of town officers, with one exception, at their annual meeting by a vote of 168 to 68.

POLITICAL.—The Nashua Telegraph has the following item of political information:

"On Wednesday evening last a meeting was holden at Concord, consisting of a large number of gentlemen from all parts of the State, and including in its number whigs, free-soilers and know nothings, called for the purpose of consulting as to the course to be pursued in this State in regard to the Presidential election. Hon. Lebabeus Chamberlin, of Portsmouth, presided. Geo. G. Fogg, Esq., had already been appointed by the National Republican Convention to meet the Republican members of Congress and others, for consultation at Washington next week, and these gentlemen, representing the other three old parties, were chosen to act in that same capacity. Hons. Geo. W. Nesmith, Asa Fowler, Anthony Colby and Frank H. Lyford, Esq., were among the chief speakers. But one opinion prevailed in the meeting in regard to the matter, and that was, nothing that could be done now party have opposed to the administration and the extension of slavery."

PETER GOTT THE CAPE ANN FISHERMAN By J Reynolds, M D Portland Francis Blake Boston John P, Jewett & Co. 1856

This volume, published in very handsome style, contains an interesting and instructive narrative of the life and adventures of a New England fisherman and gives the reader an insight of some of the hardships and perils through which the more industrious portion of this brave and hardy class of our people often wind their way to competence and comparative wealth The author gives a minute description of the various operations connected with the fisheries, and of the manner of life of the Cape Ann fishermen in former years As a narrative of personal adventures, successes and failures, and of perils encountered &c. &c. it possesses much interest.

The incidents are said to be neither fictitious nor exaggerated but to be a reliable narrative of the life of a venerable and well known fisherman of Gloucester, who was captured by the British during the Revolution, and confined in Dartmoor prison and who lived a long and successful life after his return, and whose virtues and example are still held in affectionate remembrance by the people of the Cape.

REPUBLICANISM IN NEW HAMPSHIRE.—The Portsmouth Journal gives the following account of the position of things in New Hampshire—after speaking of the desperate efforts made by the bankers in the recent election

And what has this extreme effort on the part of the Administration, which has brought every man to the polls, done for that party? Without the aid of a temperance side issue, the liquor law, which worked effectually in obtaining a few votes, it would have exhibited no increase on last year As it is however, the result shows that with all the possible efforts made, a majority is found in New Hampshire opposed to the Administration, which now finds itself in a hopeless minority.

The difficulty which existed last year in sustaining a union of effort between the Whig and American parties in consequence of the requirement that every candidate sustained for office should be a formally admitted member of the order, has been done away in the recent canvass Prominent men have been regularly nominated, sustained and elected to important offices, who had no personal allegiance to the order In fact, some have been sustained by them for office who regard the dangers of foreign interference in our state elections as of small account, however threatening it may be to other States—and the fear of Papal rule in a State whose constitution conveys the seed of all participation in its executive and legislative branches of government, as an absurdity

These views of us in New Hampshire is unconcerned, are also held by many who are enrolled as the leading members of the American party

If not and unimportant differences aside, there is one cardinal position which there is a union of sentiment among Americans, Republicans and Whigs—and that is, *determined and uncompromising Opposition to the Extension of Slavery beyond the limits where it now constitutionally exists.* This sentiment drains the dividing line between the two great parties of New Hampshire All who do not go for the restriction of Slavery enrolling themselves as the advocates of the Southern system in being supporters of a slavery administration.

There are now in New Hampshire, as we have just said, but two parties, there is no fence or doubtful ground on which a voter can stand to survey the battle field of the approaching Presidential contest Resident Pierce has turned his back upon the North, and sought the favor of the South by measures and by claiming which cannot find, even in the native State, the public ear, much less the public box in his favor

In the opening campaign before us, there is in our view but one course for all opposed to slavery steadily to pursue, that is, to stand in one strong and firm phalanx against the Administration—against any candidate who may walk in the footsteps of the present occupant of the White House, by extending slavery and by the selection of State Electors, be careful and true men, who may be without being pledged for any of the vote in the Electoral college which they shall deem the best mode of action requires. ARRIVAL OF THE

CANADA,

AT HALIFAX.

HALIFAX, N. B., March 28.

The steamer Canada in her 13th day from Liverpool, arrived at Halifax at 7 o'clock this evening.

Atlantic arrived out Thursday afternoon, 27th.

Mr. Dallas proceeded to Adelphi Hotel, where Consul Hawthorne had engaged apartments. A deputation of the American Chamber of Commerce presented him congratulatory addresses.

Mr. Buchanan dined with the Lord Mayor of London, and made a conciliatory speech, which has had a good effect.

No excitement exists respecting American affairs.

The Conferences.

The 84th sitting of Paris Conference was held Wednesday 12th, but result not known.

All accounts from Paris agree in almost certainty of peace.

Accounts from Germany and Prussia speak in the same tone.

It was generally rumored that a treaty of peace would be signed at Paris Friday, or Saturday 15th. All the differences, however, had not been adjusted. Several important disputes respecting Danubian principalities and the Asiatic frontier, are left as undecided as when Congress first met. It is said the rectifications of territory and adjustment of other unarranged difficulties are to be referred to commission on the spot. The topographical details at hand are very incomplete, and the projected frontier of Chotzym to Lake Sasyk is neither marked by stream nor mountain chain. France it is said, will appoint as pet Commissioner, General Canrobert.

Austria, England and Russia, are on the point of naming theirs.

Sardinia will not be represented in Commission. Prussia is invited.

Despatches from Berlin and Vienna state that for reasons of European interest Prussia has been invited to send representatives to the Conference, and that she accepts the invitation, and that Baron Manteuffel, as plenipotentiary would leave Berlin on the 14th for Paris. M. Hatzfeldt, the Prussian Minister at Paris, will act as second plenipotentiary. The admission of Prussia is said to be specially based upon the ground that the dissension of the treaty of 1841, by which the Dardanelles was closed to ships of war, is to begin forthwith.

Palmerston, however, refused in Parliament to answer D'Israeli's question as to whether Prussia had been admitted. He also refused to say whether Italian affairs occupy the attention of the Conference.

The Crimean armistice was known to both armies 24th 25th. The Russians had it first by telegraph from St. Petersburg on 28th. The Britannia now up the white buildings in Sebastopol.

On the 25th the Russian general Timoreff, Engan Windham, French Martimprey, and Sardinian Pelitte, chiefs of staff, met on Traktir bridge, and refined red proposals of armistice, and a line of demarkation ground, limited by the Tchernay, has been run between the two armies.

Considerable sickness in the French army. The English surgeons, having little to do, have offered their services for the French hospitals at Constantinople. The Russians are also unhealthy.

Asia.

Ismael Pasha was at Erzeroume. Omar was at Trebizond, on his way to Constantinople. Kars Pasha is to be court-martialed for the fall of Kars.

Turkey.

The Ottoman ministry is occupied with measures for alleviating the commercial crisis. Free exportation of breadstuffs is permitted from southern Turkish ports, but prohibited from ports east of the Dardanelles.

It is reported that Sir Edward Lyons will go as minister to Constantinople in place of Stratford Redcliffe, soon after the conclusion of peace.

Baltic.

From Hamburg March 14th it is stated that the British flying Squadron is pushing towards the Gulf of Finland.

British Parliament.

Admiral Napier brought forward his threatened motion for select committee of enquiry into the management of the Baltic fleet while under his command. He read into length the correspondences between himself and the Admiralty with the view to demonstrate that he was sacrificed to cover Sir James Graham's incapacity. Graham saying that the Admiral was physically unfit, also that his reputation was higher than his courage, and his skill.—Admiral Berkley also attacked Napier, who retorted, and eventually the motion was withdrawn. A copy of documents was moved for respecting Church affairs in Canada.

Hall yearly meeting of the Bank of England declared a dividend of 10 per cent per Annum, free of tax profits of half a year, being seven hundred thousand pounds.

A Deputation of Irish members of parliament have asked Palmerston to permit Smith O'Brien to return to Ireland—Answer deferred.

France.

Paris commercial letters continue to speak with confidence of peace, also mention that a speculative mania increases, and the more cautious fear that peace will bring on a commercial catastrophe. A little stranger is hourly expected. A curious programme of his appearance is published in the Monitour. A Golden Rose blessed by the Pope, with them year be sent to Empress Eugene.

Prince Jerome has been dangerously sick, but is now recovering.

Spain.

The government has had a new customs tariff before the Cortes.

The Madrid Gazette officially denies that Napoleon has addressed any remonstrance to the Spanish government, respecting the internal state of the country.

Italy.

The Inspector General of prisons of Duchy Parma, was assassinated in the street.

Prussia.

Herr Von Hinkeldey, Minister of Police, has been killed in a duel by a Captain Rochow, whom he felt compelled to challenge on account of personal insults; importance is given to event by Rochow being instigated by political party opposed to the deceased. King and Court attended the funeral.

Theodore, one of A. Zetch's children, is dead at Berlin of fever.

Sweden.

Commercial crisis exists in Norway. In the city of Bergen alone, 22 firms have stopped payment.

Russia.

Prince Gortschakoff, diplomatist, is going from Vienna to Petersburg, he says to take part in deliberations relative to the [illegible] attitude to be taken by Russia, after conclusion of peace.

Mr. Tooth returns from Stuttgart on same purpose.

Persia.

The Teheran Journal announces the death of the Persian Minister of war; also arrest of the Khan of Baradschan; also, that Persian fleet with eight guns, had occupied the Island of Kharek, and the Persian Gulf.

Mr. Bodrse, French minister, was reported to have broken off diplomatic relations, but reports received contradiction.

Mr. Lagood in British Parliament has given notice of inquiry whether hostile expedition is fitting out from India against Persia, and whether Indian or English government will pay the expenses.

Mr. V. Smith in reply to Mr. Lezard said there were two vessels, one of 500 and the other 280 horse power, but he did not know the number of their guns sent into the Persian Gulf from our Indian possessions. He could not state whether the Court of Directors of the Indian government had been called upon to prepare an expedition against Persia, but there was a report that Persia had increased her army by 10,000 men, and was meditating an attack upon the North east part of India; but he hoped when Persia learned the altered state of things in Europe, and the prospect there was of peace, she would be inclined to pause in her aggressive career.

Mr. Gladstone hoped the country would not be embroiled in war upon another Eastern question until the opinion of Parliament had been taken upon it.

Dispute with the United States.

Mr. Baillie asked when the papers relating to the dispute with the United States respecting Central America, would be presented.

Lord Palmerston replied that he was not able to state the precise day, but it would be very soon after the Easter recess.

Mr. Roebuck asked whether the papers would include those relating to the recruiting question.

Lord Palmerston said he could not tell at present, as no answer had been received to the last despatch sent by her Majesty's Government.

The Peace Conference.

Paris, Friday. The Congress held its ninth sitting to-day. The Moniteur publishes the following:

Paris Friday. Congress having invited Prussia as the signer of the treaty of the thirteenth of July, 1841, to send plenipotentiaries to Paris. The King of Prussia has appointed Baron De Manteuffel and Count De Hatzfeldt. Baron Manteuffel leaves Berlin for Paris.

Reduction of the Austrian Army.

A despatch dated Vienna, March 14th, states that a reduction of the Austrian army has been announced.

Naval Operations in the Baltic.

From Kiel, under date of March 13th we are informed that the Firefly had entered that Port, with a despatch from the British Government requesting commodore Watson not to engage in hostilities in the Baltic.

Probable Dissolution of Parliament.

It was stated in well informed circles on Thursday night, that Parliament will most probably dissolve in May.

The Rugeley Poisoning.

True bills have been found against William Palmer for the murder of Cook and Ann Palmer.

The Sultans brother is dead. The armistic throughout the Crimea was proclaimed on the first of March.

The Peace Conference.

A despatch from Berlin, of the 12th inst. says: "Count Orloff has made known at St Petersburg that a definitive understanding has been come to on the 15th, and that, thanks to the instructions brought by M. De Seebeowskoff. Peace is assured. Some special deliberations which are to take place between Russia and Turkey, have been reserved. Preparations are being made at Moscow for the convocation of the Emperor which will take place after the conclusion of peace.

Congressional.

WASHINGTON, 28th.

The Senate did not meet.

In the House the bill defining the rights of voters and Commissioners of Elections in the districts was considered, and after a struggle of two hours the bill was recommitted by the to the Commissioner on the District of Columbia.

Mr. Lane of Oregon, called attention to the horrible sufferings of the whites in Oregon and Washington Territories, caused by the unrestrained outrages of the Indians, 20,000 of whom, of various tribes, are located therein.—He alluded to the frequent murders committed, and said that no step of the administration had thus far been of service in restraining these savage atrocities, and that unless prompt action the white settlements will be wiped out entirely. He earnestly appealed for an appropriation of $300,000, to secure the services of friendly Indians who alone can, in the summer time, penetrate to the hiding places of the foe. He introduced a bill for that purpose, and the same was referred to the Committee of Ways and Means.

Mr. Campbell, chairman of the Committee of Ways and Means said the matter would be considered immediately. Adj. till Monday.

NOTICE is hereby given, that at a meeting of the board of Directors, March 11th, 1856, the following vote was passed:

The Treasurer is hereby instructed to advertise for sale on or before the fifteenth day of April next, all logs on which the boomage has not been paid or satisfactorily arranged and secured by good notes, taking the time of sale about the fifteenth of May, and that he shall sell the same accordingly, if the boomage is not so paid in cash or good paper, reserving the lien in all cases where paper is taken: and that he shall take possession of all logs or lumber on which the boomage has not been paid before the time of sale, where he deems it necessary for security.

American and Foreign Office,

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U S PATENT OFFICE WASHINGTON.

R. H. EDDY,
No. 76 State Street, opposite Kilby St,
BOSTON

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U S Patent Office under the Act of 1837,) determined to present advantages in applying for patents; superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty as paid back by others*,) will be remitted to him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These, besides his extensive library of legal and mechanical works, afford accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats Specifications, Assignments, or all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and management of patents All necessary of journey to Washington to procure a patent, and the usual great delay there, are here saved-moreover,

TESTIMONIALS

"During the time I occupied the office of Commissioner of Patents, R H EDDY, Esq, of Boston, practised before the Patent Office as Solicitor for procuring Patents There were few if any persons acting in that capacity who had so much business before the Patent Office and there were none who conducted it with more skill fidelity and success I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and from my knowledge of his integrity I am sure that they cannot employ a more competent and trustworthy, and more capable of putting their applications in a form to secure them an early and favorable consideration at the Patent Office,

TESTIMONIALS

From Rev Jesse Hoyt, Lewiston Falls.

SIR CLARKE—Every bottle of the Universal Cough Mixture which you left with me, is sold—and I have several applications for more. As far as heard from, all have been perfectly satisfied with the medicine. One man, who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was the same one evening, purchased one large bottle, and before he had taken one third of it, was perfectly cured, and has had no cough since He says it is the best medicine in the world, and cannot be recommended too highly

JESSE HOYT

From Mr. Fletcher Chuck, agent for North Duxmont, Maine

DEAR SIR—A daughter of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had a cough of a year's standing and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture

From Mrs Hubbard, Thorndike, Me

FEBRUARY 1 1854

To Rev Walter Clark Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs it has proved a most valuable remedy. I have used several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me. I procured a bottle which I began to take according to directions on the label, by which in a few days I was entirely cured
